

LEGAL DOCUMENT

Terms of Use

Website, subscription materials, trading signals and education

Version	17 September 2026
Website	https://amix-team.digital/
Document	TERMS-2026-09

Important

This document reflects the actual AMIX TEAM website model: informational and educational materials, trading signals and subscription access. AMIX TEAM does not accept or manage users' funds.

1. Scope and acceptance of the Terms

These Terms govern access to the AMIX TEAM website, free and subscription materials, trade signals, analytics, intelligence training and related channels. By visiting the Site or requesting access, you confirm your knowledge of the Terms, Privacy Policy, Cookie Policy and Risk Notice.

If the user does not agree, he must not sign up or use the materials. The consumer's mandatory rights under the applicable law are preserved and have priority over the contrary clause.

2. Nature of the Service

The service provides information and training: market reviews, possible entry points, steps, goals, risk-parameters, transaction breakdowns and accompaniment in the selected tariff.

AMIX TEAM is not a broker, stock exchange, bank, asset manager or fund keeper; it does not take money into trust and does not execute an order.

3. User eligibility

Subscription materials may be used by persons under 18 years of age who are not prohibited by the law of their place of residence.

The user is obliged to communicate reliable information, protect access to devices and accounts and immediately notify via official contact of suspicion of compromise.

4. Plans, enrolment and payment

The AMIX Pass subscription rates are published on the Site with different number of trading sessions and accompaniment volume. The price, period, composition, payment method and start date shown on the Website and confirmed to the user in official correspondence immediately before payment are considered current.

Before payment, the user must obtain a clear confirmation of the selected tariff, final amount, currency, access period, start time, renewal order and applicable returns conditions.

Payment is made only by the method confirmed through official contact on the Site. The user must not transmit card details, password, seed phrase or access to a trading account in messages.

5. Access, changes and cancellation

Access is granted for an agreed period after payment has been confirmed or for any other agreed basis. Temporary technical breaks are possible due to service, external platform failures, force majeure or security measures.

Requests for cancellation or return are considered taking into account the conditions confirmed before payment, the actual access granted and the compulsory consumer legislation.

AMIX TEAM may change future tariffs and the composition of future periods. Significant deterioration in an already paid period requires notification and a reasonable solution: continuation on agreed terms, equivalent replacement or a proportionate refund if applicable.

6. Acceptable use

The user is prohibited from:

- to resell, mass-copy, publish or transmit closed materials;
- to pose as AMIX TEAM, its representative or another user;
- use the Site for fraud, illegal advertising, malicious code or violation of third party rights;
- circumvent protection , access restrictions or technical measures;
- create over-automated loads, extract data on an industrial scale or interfere with the work of the Site;
- To distort signals or results to create a false promise of profitability.

7. Intellectual property

The design, texts, analysis, marking, selection and structure of the materials are protected by applicable law and belong to AMIX TEAM or the relevant rightholders. The user is granted a limited, personal, retrievable and non-transferable right to use the materials for their own learning and trade within the scope of paid access.

The mention of third-party trading venues, tools and trademarks does not imply a partnership or approval unless specifically stated.

8. Risks and no warranties

AMIX TEAM does not guarantee profit, accuracy of forecast, continuity of access, achievement of the transaction goal or conformity of materials to a particular user.

The user makes decisions independently and is at risk of losing part or all of the capital.

9. Third-party services

The site contains links to Telegram, Teletype and may be directed to brokers, exchanges or payment providers. These services are independent, operate on their own terms and may not be available. AMIX TEAM is not responsible for their actions except where the liability is explicitly established by a binding law or separate written agreement.

10. Limitation of liability

To the maximum extent permitted by law, AMIX TEAM is not liable for indirect losses, lost profits, trade losses or user decisions, failure of its intermediary or actions of third parties. This restriction does not apply to intentional violations, gross negligence and other liability that cannot be excluded.

Nothing in these Terms and Conditions restricts the consumer's mandatory rights and does not impose on the user a risk that the supplier is legally obliged to bear.

11. Suspension and termination of access

Access may be suspended for breaches of the Terms, security threats, non-payment, illegal use or reasonable suspicion of fraud. If possible, the user is notified and given an opportunity to explain the situation, except in urgent cases of protection of the Site and other persons.

The provisions on intellectual property, liability, payment for services already rendered and dispute resolution remain in force after access is terminated to the extent necessary.

12. Governing law and disputes

The parties first try to resolve the dispute in good faith through an official contact. If the applicable law or competent court is not defined by binding rules, they are determined by the place of the legal service provider and the circumstances of the particular transaction.

13. Changes and contact details

The new edition applies from the date of publication and does not deprive the user of the existing mandatory rights.
